

VizSmart

The Hybrid Security Gate provides state of the art magnetic and RFID detection technology to safeguard your library collection. The gate comprises a slim EM and RFID antenna in clear plexiglass. The transparent material creates a sense of more space, invaluable for congested entrances.

It provides visual and audio alarms upon detection, beeper will sound with flashing lights on the gates. It is able to integrate with external device like a camera or turnstiles system.

The Hybrid Security Gate is completely safe for AV magnetic media.

Specifications

- ✓ Dimension: 1506 * 730 * 20 (mm)
- ✓ Detection Width: up to 1000 (mm)
- ✓ Operating Voltage: AC 230, 50Hz
- ✓ Frequency: 488MHz & 13.56 MHz
- ✓ Attractive Plexiglass finish
